ABOUT ME

A graduate of the Faculty of Information Technology, majoring in Information Technology at King Mongkut's Institute of Technology Ladkrabang, is interested in a position as a Front End Developer or Full Stack Developer.

EXPERIENCE

INTERNSHIP AT

August – November 2022 (4 months)

CODER COMPANY LIMITED

Full Stack Developer

- Develop UI using React and Ant Design from the designed UI Prototype to support the CRUD system.

- Create relational database tables from the ER Diagram to be used for developing the API service.

- Develop REST API services using Java Spring Boot and test HTTP requests with Postman, followed by system testing with Java Unit Test before further development on the client side.

- Use Axios for HTTP requests on the client side and Redux Saga for managing various states within the app.

- Display data from the API through the UI and test adding, editing, and deleting data according to the developed functions.
